From: Emily

To: Niara

Date: December 1

Subject: SAN FRANCISCO!!

Hey Niara,

Guess what? I am visiting San Francisco during this winter break! I will fly into San Francisco on December 23rd and fly back to Japan on January 1st. I am looking forward to celebrating Christmas with my family this year! I should be free after Christmas Day to meet up with friends. I'd love to see you sometime while I'm in town. Maybe we can look at Christmas lights or see a movie! What are your plans for New Year's Eve? I was thinking of having a party at my grandma's house, so I'm going to ask her about that. I will let you know when I come. Write back soon!

Your friend,

Emily

Have you ever \bigcirc (wonder) where honey comes from? Let's discover the amazing world of bees and how they make honey.

Bees are *insects that give us a sweet gift from nature. They're ②(A), but they do ②(B) things. Abee *weighs only 0.09g, but it carries as much as 0.4g of *nectar in a day. That means that bees carry five times their weight in nectar.

Bees live in *hives and work together as a team. There are a queen bee, worker bees, and even some boy bees called drones in hives.

The worker bees are <u>sthe ones</u> that collect nectar from flowers. They fly from one flower <u>()</u> another to collect sweet nectar. They use their *tube-like tongues. They *store this nectar in a special stomach called a honey stomach. Then, they bring it back to the hive.

After that, the worker bees inside the hive work hard. They change the nectar into honey through many *processes. This is the way honey is <u>(make)</u>.

We can enjoy honey in many ways. For example, you can put it on your toast or in your tea. Also, it is useful for our health. When you feel bad in your *throat, honey has a good *effect on your throat. The next time you use honey, remember the fantastic bees and their work.
